As you can see below, Martha made structural changes to where the information is presented in this presidential transition briefing paper. I look it over and think it is OK, but don't want to agree to it unless you think so as well. I know Mindy is out Ex. 6 Personal Privacy (PP) Can you take a look on her behalf and get back to me ASAP? Again, the question is whether you're OK with Martha's reorganization. If not, point me to what you DO NOT want changed. Thank you.

Grace

Grace – don't freak out when you see this.

We agreed I could send this forward on Friday but I didn't. It seems so repetitive and bulky and I tried to work on it so it was less so. Charlotte will review this one and I know that she carefully reads these and has a sense that these should be high level, big picture.

It looks like a lot of changes but for the most part I just moved some text around. So a lot of the delete/paste is moving text and my comments on the RH side are saying things like "I moved this"

I have a couple of questions for OWOW to consider – like "can we summarize" or "do you think this is needed." I wanted to make this as reduced and to the point as possible without losing important parts.

Would you mind taking a look at it again and getting back to me? On the questions I pose, like "in your judgement is this needed?" if your answer is "yes" I will take out my comment and leave it.

It looks like a lot but basically, if you are OK with the text move and can answer my questions – it won't take very long to get it back to me.

Thanks so much.
